

Volunteers needed for a paid research study on the *social brain*

What's the study? We are researchers at the University of Rochester investigating how the brain processes social information.

Who is eligible? Individuals ages 15-65 who are fluent in English. If 15-17, a parent/guardian needs to provide consent.

What's involved? There are 3 parts to the study:

1. Clinical interviews, questionnaires, paper-and-pencil/computer-based assessments of cognition (\$10/hour, 4-6 hours)
2. Magnetic resonance imaging (MRI) scan (\$20/hour, 3 hours)
3. Daily diary questionnaire (7 days, \$2/day)
