

Education and Future Consciousness Study

Pursuing or have a degree in literature (or related field) or STEM? Participate in our study for a chance to win \$75!

What's the study?

We are researchers at the University of Rochester investigating the effects of education on how people think about the future.

Who can participate?

18+ y/o, studied/are currently studying in the U.S., and meet **one** of the following conditions:

- 1) You **have a degree** focused on or closely related to literature. "Closely related to literature" includes all degrees in which the study of fictional narratives and stories comprise an essential component of the course (e.g., film studies, creative fiction writing, theater);
- 2) You are **currently receiving** a degree focused on or closely related to literature, AND have completed at least 6 classes in that field;
- 3) You **have a degree** focused on science, technology, engineering, or mathematics (STEM);
- 4) You are **currently receiving** a degree in a course of study focused on STEM, AND have completed at least 6 classes in that field.

What's involved?

One 20-25-minute online survey with various questionnaires and tasks, at the end of which you can enter our lottery to win a \$75 gift card.

How can I participate?
