

SUBJECTS NEEDED FOR A PAID NEUROFEEDBACK MRI STUDY

Interested in viewing your brain activity in real-time as you think?

What's involved? Two behavioral sessions involving interviews, questionnaires, and computer tasks (2-4 hours per session, \$20/hour), and three magnetic resonance imaging (MRI) scans (1.5 hours per session, \$30/hour).

Interested? You may be eligible if you are 15-30 years of age and receiving services at INTERCEPT. For more information:

Complete a study interest form at <https://redcap.link/neurofeedbackstudy> or by scanning the QR code →
